MEMORANDUM FOR SEE DISTRIBUTION

14 Jan 00

FROM: HQ AFMC/PK
4375 Chidlaw Road, Room S208
Wright-Patterson AFB OH 45433-5006

SUBJECT: Expired Contractor DoD Activity Address Codes (DoDAACS)

1. The HQ AFMC Logistics Support Office (LSO) has issued a change in the handling of expired DoDAACS. DoDAACS are required for a contractor to ship or receive government property. A contractor maintains an active DoDAAC if they have an active government contract. AFI 24-230, Chapter 3, requires the CAO/ACO/PCO to notify the LSO of any new contract or changes to an existing contract affecting an Air Force DoDAAC. Previously, the LSO advised the CAO/ACO/PCO of contracts where the DoDAAC was expired (i.e., the contract was physically completed.) Due to a reduction in manning, the LSO can no longer provide the service.
2. Effective 01 Feb 00, any DoDAACS with an expiration date exceeding the LSO grace period of 30 days beyond physical completion will be deleted. Any DoDAACS that had an expiration date in 1997 or 1998 have already been deleted. To reinstate a DoDAAC, the CAO/ACO/PCO must submit a new request through the LSO website at <http://www.afmc-mil.wpafb.af.mil/HQ-AFMC/LG/LSO/lot>.
3. Please direct any questions to my action officer, Mr. Don Poole, HQ AFMC/PKPA, DSN 986-0359, or E-mail at donald.poole@wpafb.af.mil.
